

Organic Carnauba Wax

USDA Certified Organic Carnauba Wax is a vegetable wax grown only in the northeastern part of Brazil, and comes from the leaves of the Brazilian "tree of life". Organic Carnauba Wax is a Type 1 Prime Yellow in flake form.

Our Certified Organic Carnauba Wax is perfect for your organic formulation. Carnauba Wax is the hardest natural wax. The quality and color of the wax is determined by the age of the palm leaves selected, with the younger leaves providing the lightest color and highest grade.

Applications:

Cosmetic Emulsions, Sunscreens, Make-ups, Foundations, Lip Balms, Pomades, Lipstick, Lip Gloss, Oil Gel Products, Decorative Cosmetics, Candies, Pharmaceuticals, Nutraceuticals, and Gel Caps.

Advantages:

Free of herbicides and pesticides. The natural carnauba wax chemistry remains intact.

Regulatory Information:

INCI Name: Copernicia Cerifera (Carnauba) Wax

CAS#: 8015-86-9

Wax#	Wax Name	Melting Point	Acid Value	Saponification Value
412	Organic Carnauba Wax	80 - 86°C	2 - 7	78 - 95
